🎓 EDUCATION

B.Tech - Computer Science and Engineering (specialisation in Data Science) 2020 – 2024
Oriental Institute of Science and Technology CGPA-8.11 Bhopal, India

💼 PROFESSIONAL EXPERIENCE

Data Science Intern 10/2025 – Present
DataNeuron Remote

- Developed RAG pipelines for document-based question answering using LLMs and vector databases.
- Built AI agents and Multi-Agent Systems (MAS) to automate AI workflows and model interactions.
- Integrated Knowledge Graphs to improve contextual retrieval and semantic understanding of queries.
- Implemented reranking techniques in RAG pipelines to improve document retrieval accuracy.
- Designed custom evaluation metrics to measure performance of RAG and LLM systems.
- Applied Knowledge Distillation and PEFT techniques for efficient fine-tuning of language models.
- Contributed to developing a Role-Based Access Control (RBAC) RAG system for secure document access.

Junior AI / ML Engineer 06/2025 – 09/2025
Xapton Solutions Remote

- Developed FastAPI microservices to integrate AI agents into Dell GCS Partner onboarding systems.
- Built APIs for schema validation, payload testing, and automation workflows.
- Implemented backend services for document sharing and connectivity validation.
- Collaborated with cross-functional teams to support agent deployment and monitoring.

Data Science Intern 03/2023 – 04/2023
Code Clause

- Skilled in data collection, preprocessing, visualization (Python,R,Tableau), statistical analysis for insights.
- Researched machine learning extensively, and evaluated models, emphasizing feature engineering and model selection.

AI Intern 01/2023 – 03/2023
IBM SkillsBuild

- Developed AI-driven Drowsiness Assistant System using facial recognition & machine learning for real-time monitoring & alerts, Prioritized road safety by accurately detecting driver drowsiness & preventing accidents through adaptive features.
- Ensured compliance with regulatory standards & safeguarded user privacy, revolutionizing road safety measures.

📁 PROJECTS

Role-Based Access Control RAG System for Secure Document Q&A 02/2026 – Present

Python, RAG (Retrieval Augmented Generation), LLMs, Vector Database, Embeddings, Streamlit, LangChain, Role-Based Access Control (RBAC), NLP, PDF Processing

- Developed a RAG-based document question answering system for retrieving information from multiple files.
- Implemented Role-Based Access Control (RBAC) so users access only authorized documents.
- Built a document ingestion pipeline to process, chunk, and index documents with embeddings.
- Integrated vector database retrieval and LLMs to generate accurate context-aware answers.
- Developed a Streamlit interface with authentication for secure user interaction and querying.
- Designed the system to support multi-user environments and secure document retrieval.

AI Chatbot for Business Automation

OpenAI/GPT-4, LangChain, FastAPI, MongoDB, Streamlit, Docker

- Developed an AI-powered chatbot using GPT-4, LangChain, and FastAPI to automate business queries.
- Integrated retrieval-augmented generation (RAG) for accurate responses from internal knowledge bases.
- Optimized vector search and embeddings using FAISS/ChromaDB for efficient document retrieval.
- Deployed the chatbot using Docker and MongoDB, ensuring scalability and reliability.
- Integrated Docker-based deployment workflows and automated build pipeline for streamlined API delivery.

🧠 SKILLS

Languages

Python, C/C++, Java, SQL, R, Bash PowerShell

Tools & Frameworks

Agents, Docker, Excel / Google Sheets, Express.js, FastAPI, Flask, Git, GitHub, Hugging Face Transformers, Kubernetes, YAML, LangChain, LangGraph, LLaMA, MLflow, MySQL, OpenAI API, pgvector, Power BI, PyTorch, Qwen, Scikit-learn, SpaCy, Streamlit, TensorFlow, Ansible, NoSQL, REST API, XGBoost, MongoDB, ChromaDB, Neo4jgraphDB, Ragas, peft, llama index, EC2, AWS, MAS,A2A

Technologies

Agents,MAS,Knowledge Distillation,Knowledge graph,MLOps, API Development, Agile, Data Structures and Algorithms, Research, Linux, Programming/Object-Oriented Programming, Data Analytics, Machine Learning, Data Science,Data Preprocessing, Data Mining, Data Pipeline, Statistics, NLP, RAG, LLM, AWS, Azure, Data Engineering, Software Engineering, Problem Solving,CI/CD, Snowflake, shell, ELT,Data Engineering, Snowpipe, System Programming, Multithreading, Knowledge Distillation

 CERTIFICATES

- - IBM Data Science Specialization
- - TCS iON career Edge - Young Professional
- - Supervised Machine Learning
- - Getting Started with Data Analytics on AWS
- - Oracle Cloud Infrastructure 2025 Generative AI Professional
- - AI, Empathy & Ethics
- - Database and SQL for Data science with Python

 AWARDS

Rank 6 in DataViz Hackathon 21/08/2023
Indian Institute of Management (IIM), Calcutta
